

Every day when I am driving to work I listen to K-Love. This makes my drive less stressful and puts me in a wonderful mood. I appreciate the values that they instill in their listeners. Every moment with your family should be cherished. This station is God-centered, which I can't say to much for other station that are out there. This station is such a good example for everyone in the community, this world would be a better place if everyone listened to this station. I do not want to see this station become LPFM. Do not change anything about this station.
